PROFESSIONAL SUMMARY

Full Stack Developer skilled in MERN stack, Java, REST APIs, and Salesforce CRM. Experienced in building and deploying end-to-end web applications with a strong foundation in DSA, Git, and Agile development.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap 5, EJS

Databases: MongoDB, MySQL, SQL (RDBMS)

Web Technologies: REST APIs, JSON, JWT Authentication, HTTP, MVC Architecture

Cloud & CRM Platforms: Salesforce (Apex, Flows, Dashboards, Custom Objects), Trailhead Ranger

DevTools & Version Control: Git, GitHub, VS Code, IntelliJ IDEA, Android Studio

Operating Systems: Linux (Red Hat), Windows

Core CS Concepts: OOP, DSA, DBMS, Computer Networks, Operating Systems, Software Engineering, Agile/SDLC

EDUCATION

B.Tech — Information Technology | Arya College of Engineering & IT, Jaipur (RTU) 2022 – 2026 (Expected)

- CGPA: 9.0 / 10.0 — Consistently among top performers in the department
- Awarded 2nd rank in academic performance during 4th Semester
- Relevant coursework: Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems, Software Engineering

Senior Secondary (Class XII) | Tilak Bhal Vidhyapeeth School, Malpura — RBSE 2022

- Percentage: 83.80%

Secondary (Class X) | Aman Deep Vidhyapeeth School, Sanvariya — RBSE 2020

- Percentage: 86% | Achieved 2nd rank in the entire school in board examinations

WORK EXPERIENCE

Full Stack Development Intern | Micro IT Company (Remote) May 2025 – Jun 2025

- Developed and deployed full-stack web application features using Node.js, Express.js, and MongoDB
- Designed and integrated RESTful APIs with form validation, session handling, and dynamic content rendering
- Built responsive front-end interfaces using HTML5, CSS3, JavaScript, and EJS templating engine
- Implemented user authentication and role-based access control for secure application access
- Used Git and GitHub for version control, branching, and collaborative development throughout the project lifecycle

Cyber Security Intern | TechForce Academy, Australia (Remote) May 2025 – Jul 2025

- Applied cyber security principles including threat detection, vulnerability assessment, and network security protocols
- Performed ethical hacking exercises covering reconnaissance, exploitation, and system hardening techniques
- Analyzed Linux and Windows environments for misconfigurations and security vulnerabilities

TRAINING

Salesforce Developer Training | TechForce Academy, Australia (Remote) Aug 2024 – Sep 2024

- Completed Salesforce CRM fundamentals covering declarative development, Apex programming, and data modelling

- Built two production-style Salesforce applications — Event Management and Hospital Management — as capstone projects
- Earned Salesforce Trailhead Ranger badge through hands-on modules in automation, Apex, and CRM configuration

Red Hat Linux System Administration | Red Hat Academy

2023 – 2024

- Completed RHCHA-level training covering user management, file systems, networking, shell scripting, and service configuration
- Gained practical skills in Linux administration for enterprise environments including package management and process control

PROJECTS

E-Commerce Web Application — *React.js, Node.js, Express.js, MongoDB (MERN Stack)*

- Built a full-stack e-commerce platform with product listing, shopping cart, order management, and user authentication
- Designed RESTful APIs using Express.js; managed database schema and complex queries with MongoDB
- Implemented JWT-based authentication and authorization for secure, stateless user sessions
- Developed fully responsive UI with React.js and Bootstrap 5 ensuring cross-device and cross-browser compatibility

Event Management System — *Salesforce — Apex, Flows, Custom Objects, Reports*

- Built a Salesforce CRM application to manage event registrations, participant records, and scheduling workflows
- Automated business logic using Salesforce Flow Builder and Apex triggers; created reports and dashboards for real-time data insights
- Implemented validation rules and role-based permissions to ensure data integrity across the system

Hospital Management System — *Salesforce — Apex, Flows, Validation Rules*

- Developed a Salesforce application to manage patient records, appointments, and hospital operations end-to-end
- Designed custom objects, fields, lookup relationships, and validation rules for accurate data management
- Applied role-based access control and sharing rules to protect sensitive patient data

Simon Says Memory Game — *HTML5, CSS3, Vanilla JavaScript*

- Implemented a browser-based interactive memory game with randomized sequence generation and animated visual feedback
- Managed game state, user input events, level progression, and score tracking using DOM manipulation and JavaScript ES6

CERTIFICATIONS

- NPTEL — Java Programming (IIT / NIT Certified)
- MongoDB Developer Certification — MongoDB University
- Red Hat Certified System Administration (RHCHA) — Red Hat Academy
- Salesforce Trailhead — Ranger Rank
- Infosys Springboard — Technology Fundamentals
- Code 360 — Java Programming, Coding Ninjas

ACHIEVEMENTS

- CGPA 9.0 — Consistently top-performing student in B.Tech Information Technology program
- 2nd Rank — Academic performance in 4th Semester of B.Tech
- 2nd Rank — Entire school in Class X RBSE Board Examinations
- District-level Volleyball Participant — 64th School Sports Competition
- Scored 70% in Akhil Bharatiya Sanskriti Gyan Pariksha — National-level cultural exam by Vidya Bharati
